

Relax. Rejuvenate. Refresh.

**THERAMIST**

Steam Showers

# *Steam Therapy*

## *Ancient Wisdom, Modern Luxury*

Steam therapy is not new, but the ease with which you can access the vast array of steam's benefits has never been greater. Theramist Steam Showers are the modern adaptation of the steam immersion ritual that has been used in many cultures for hundreds of years. The ability of steam to improve overall health, clear the mind and rejuvenate the spirit is well documented, and a Theramist Steam Shower effectively, affordably, and stylishly integrates this amazing therapy to your home.

### **Health - "Invest in You, Invest in Life"**

As we continue to lead busier and busier lives, it's imperative that we invest in ourselves - we need to rejuvenate and recharge more frequently. The small investment in a Steam Shower quickly pays off in many ways:

**Relaxation** - The most immediate benefit of time in a Theramist Steam Shower, a period of relaxation enables us to step out of the torrid pace of life and find a little tranquility, perhaps a little isolation, and a soothing environment.

**Sleep** - Without healthy, deep sleep the body cannot properly heal and is left in a state that is susceptible to illness. Poor sleep patterns often initiate a chain reaction of poor health - and this can be avoided with a daily session in your Theramist Steam Shower.

**Improved Circulation** - Circulation is literally our lifeblood - with increased circulation comes improved healing and detoxifying. Small injuries are overcome more efficiently and ongoing ailments find increased relief. The ever-increasing amount of toxins we are exposed to daily are flushed from our bodies, and nutrients are delivered to tissues in need more effectively.

**Stress Relief** - Stress is unavoidable, but we can remove stress by-products and renew the spirit with a short steam shower session. "Feel good" brain endorphins increase in production and a general feeling of well-being will emerge after a Theramist Steam Shower session.

**Cognitive Function** - Those who cope with stress more efficiently, that get adequate sleep and who are not battling illness are often able to be more productive, stay on task longer and be more positive contributors to the activities they engage in.

**Skin Health** - Steam has long been used to exfoliate and rejuvenate the skin. Theramist Steam Showers naturally moisturize the skin while increased circulation brings nutrients to supply healthy growth. Avoid expensive chemical solutions and enjoy this ancient, natural method for beautiful, youthful skin.

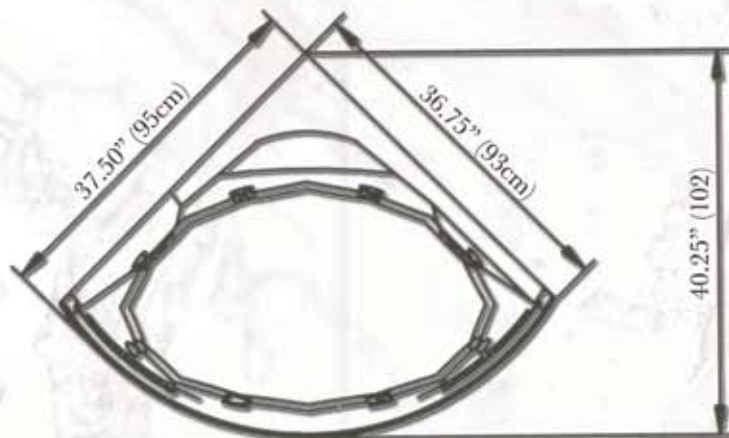

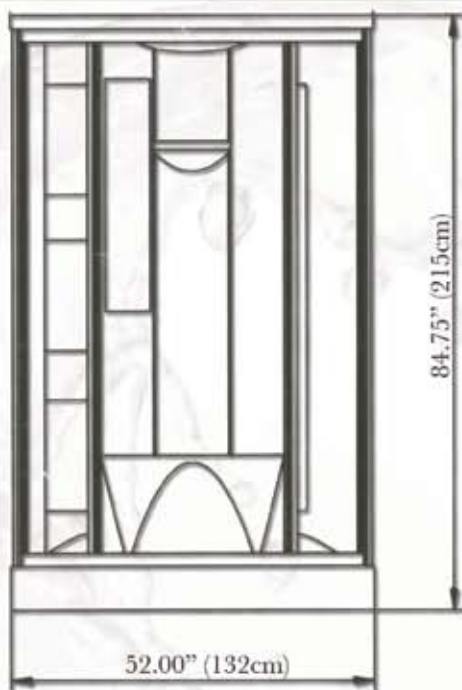

# CS 2246

This beautiful and compact corner unit provides you with all the features in a space-saving design. Perfect for individual use, you'll discover that this model has a lot to offer.

## *Home - “Your Best Investment Value”*

For most people, your home will be far and away the largest purchase you will ever make. The investment in upgrading your home can add a significant value and nowhere in your home is that investment better realized than in the bathroom. In fact, bathroom upgrades are the one and only area that pays back more than they cost. Theramist Steam Showers offer a simple, cost-effective and easily-installed upgrade that add that “wow!” factor to your new bathroom. To make things even easier, Theramist Showers are completely self-contained so they can be installed nearly anywhere. Hot and cold supply, 110 V electrical, and a drain is all you need so this luxury can be yours. Your own home spa is within reach for everyone!

Clean modern lines, luxurious surfaces and dazzling light and sound systems give your new bathroom an air of refinement and style. Friends and visitors will admire this beautiful addition to your home and will feel (and look!) like they visited an indulgent five-star hotel spa.

### *Theramist Steam Showers are loaded with features such as:*

#### **Chromotherapy Lighting Systems**

Multi-plane color changing light systems set the mood and soothe your senses.

#### **Multi-port Body Showerheads**

Seated or standing, pinpoint stress points, or enjoy a full massage from the multiple nozzles.

#### **Rainshower Showerhead**

High volume overhead shower to drench the body in a deluge of warm water, or a refreshing cool down after your steam.

#### **Hand-held Massage Showerhead**

Use the high volume massage wand to target large muscle groups or give the best neck massage you've ever had.

## Solid State Controls

Handsfree Phone - Never interrupt your steam to check the phone, take the call, or not!

AM/FM Radio with Input for Multimedia Devices - Integrated music systems to relax or invigorate are at your fingertips

Ozone System - Use the power of active oxygen to naturally and automatically sanitize your steam

### Shower Foot Massage Pad

Reactivate tired feet with stimulating water massage in the perfect position. Stores conveniently on the wall when not in use.

### Ergonomic Seating

Moulded seating cradles your body perfectly, letting steam and water work their magic! Lean back and be transported...

### Stylish Modern Design

Luxurious surfaces, blended with quality modern fixtures, add up to impressive design.

### Stereo Sound System

High quality stereo sound system with moisture-resistant speakers provide clear sound as you enjoy a steam or shower.
